

Aladdin Commercial Lifts

Available in 110V,
208V, 240V & 277V

Aladdin Light Lift has 25 years of experience raising and lowering light fixtures. Aladdin Light Lifts eliminate liability and cut operational cost. Expensive and dangerous man lifts are no longer needed for bulb changing and fixture cleaning. Aladdin commercial lifts are UL listed and geared towards high bay light fixtures.

Also available is Aladdin's Multi-Lift Controller. It allows the operation of up to 25 light lifts individually, or all at once using a wall mounted LCD controller.

Howze Theater, Fort Hood

The Howze Theater utilizes thirty three commercial lifts and two Multi-Lift Controllers for the auditorium's high bay lights.

With a finished ceiling, Aladdin commercial lifts are neatly tucked away and not visible from floor level.

The picture below shows half of the high bay lights lowered to safe level for relamping and cleaning.

- Save time and money
- Simplify fixture installation
- Lower liability
- Reduce operational costs
- Eliminate floor damage

Proudly Assembled in Huntsville, AL
